

IRISH ENERGY CENTRE  
RENEWABLE ENERGY INFORMATION OFFICE

New publication available from REIO:

## Wind Turbines - Fundamentals, Technologies, Application, Economics.

Author - Erich Hau

Publisher - Springer (<http://www.springer.de>)

ISBN No. 3-540-57064-0

This book provides an overview of modern wind turbine technology and an orientation in the associated technical, economic and environmental fields. Containing 435 figures and 31 tables, it is based on the author's experience gained over more than fifteen years designing wind energy converters with a major industrial manufacturer and more recently, in technical consulting and in the planning of large wind park installations, with special attention to economics.

Described by **Paul Kellett** (Technical Manager REIO) as "probably the best reference book currently available on wind turbines."

The book is currently available from the REIO at the discounted price of **IEP£85** including pp.

Please send purchase order or cheque when you are ordering a copy.
